

DJASCI is a state level project and poster competition organised by DJ-ACM and DJ-CSI in collaboration, with the faculty of both the IT and Computer Engineering departments managing the event. It is a medium to encourage the BE students to present their project topics at state level. A strict scrutiny of the participant's project is done to shortlist the projects for final presentation. Finals has two rounds where in the first round detail implementation of the project is checked by our esteemed alumni working in that particular domain. Shortlisted projects from the first round are then evaluated by industry experts. For both rounds the projects are evaluated on rubrics such as methodology, feasibility, social relevance, applicability etc. To encourage projects that could not make up to the competition Poster Presentation is organized for them on the same day. The display of these projects help third year students to be aware of research areas and innovative applications of technology. Best poster is selected by our alumni judges. The winners of the project competition are felicitated by certificates and cash prize and those of poster presentation are also awarded certificates.

DJASCI 17 was all the more successful with approximately 120 entries for the project competition from all over Mumbai and 70 entries for poster presentation. Out of the 120 projects, 80 were shortlisted and 60 teams were registered for the competition. A strong team of almost 15 Alumni of Computer and IT department evaluated the projects for the first round and posters as well. Esteemed industry personnel were invited as judges for the final round of project competition.

#### Winners of DJASCI 17 project competition:

Rank	Student Name	Project Name	College
1 <sup>st</sup>	Kushal Vyas	Structured Light 3D Scanner (Point Cloud Generation using Triangulation)	DJSCE
2 <sup>nd</sup>	Sameer Korlahalli, Harsh Parmar, Akshay More	Standalone Device For Home Automation And Personalized Recommendation	DJSCE
3 <sup>rd</sup>	Adit Shinde, Sushilkumar Takkekar, Ratnesh Dubey	Web based Code Testing and Monitoring Engine	RAIT
Judges Special Mention	Sanjana Panicker, Maitreyi KV, Merrill Gonsalves, Kane Gonsalves	Design and Overview of a Navigation Application for the Blind	FRCRCE, Vashi

#### Winners of DJASCI 17 poster presentation:

Rank	Student Name	Project Name	College
1 <sup>st</sup>	Lodaria Priyal, Kothari Yash, Kapadia Karan	Weather Prediction System Held	DJSCE
2 <sup>nd</sup>	Shyam Mehta, Pande Roshan	A Real Time IOT Belt with Depth perception and Object Recognition Held	DJSCE

**Judges of DJASCII 17:**

<b>Alumni</b>	<b>Industry experts</b>
Mr. Shreyansh Jain,	
Ms. Mansi Shah	
Ms. Aakriti Agrawal,	
Mr. Chintan Shah	1. Nimish Somaiya
Mr. Sumeet Gajjar,	Strategy & Architecture – Centre of Excellence
Mr. Nirdh Mehta	Reliance Industries Limited, Navi Mumbai
Mr. Kunal Sheth,	
Mr. Sunny Patel	2. Dr. Amiya Kumar Tripathy
Mr. Aditya Kalushte,	Dean of Research & Development
Mr. Ketur Shah	Don Bosco Institute of Technology, Mumbai
Mr. Amar Mehta,	
Mr. Chirag Jain	3. Mr. Sachin Kadam
Mr. Smit Shah,	VP Technology & Innovation @ Mobiuso
Mr. Ankit Vajani	
Ms. Adity Chodankar
