

About

GDSC DJSCE represents the Google Developer Student Club at the college level and is affiliated with Dwarkadas J. Sanghvi College of Engineering due to persistent efforts put by **Soham Dave**, a fourth-year student from the Department of Information Technology under the guidance of **Dr. Hari Vasudevan**, Principal of Dwarkadas J. Sanghvi College of Engineering and **Dr. Vinaya Sawant**, Head of the Department of Information Technology and **Prof. Neha Katre**, faculty advisor. Google Developer Student Clubs (GDSC) are community groups for college interested in Google developer technologies. Students from all undergraduate or graduate programs with an interest in growing as a developer are welcome.

Vision

To create a space for students, ranging from novice developers who are just starting, to advanced developers who want to further their skills where they can learn and collaborate as they solve real-world problems.

Mission

- ❖ To bridge the gap between theory and practice.
- ❖ To foster the ability to give back to society with the help of technology.
- ❖ To create an ideal environment for learners in and around the campus.
- ❖ To throw light on various technological advancements and how they will enrich our future.
- ❖ To imbibe a sense of responsibility amongst students by making them understand the importance of collectively and effectively working in a team.

Benefits

- ❖ Learn about a wide range of technical topics through hands-on workshops and project-building activities.
- ❖ Collaborate and work together on projects. Such projects can maximize the educational experience while improving social and interpersonal skills.
- ❖ Interact with tech and industry experts, active open-source contributors, and researchers in the field of computing.
- ❖ Explore yourself and your preferred domain in the field of Computer Science.
- ❖ Advance your skills by participating in various competitions and events. It will make you more efficient at solving problems as well as hone your coding skills.
- ❖ Connect with people on campus and outside. Connecting with people with technical experience helps you gain valuable insights and guidance.

Domains

The domains which will be covered in this term are:

- ❖ Web Development
- ❖ App Development
- ❖ IOT
- ❖ AR/VR
- ❖ AI/ML
- ❖ Cloud Computing
- ❖ Competitive Programming
